REPORT OF THE COMMITTEE ON PENITENTIARIES.

Mr. Turner, chairman, submitted the following report of the Committee on Penitentiaries:

To the House of Representatives,
Forty-second Legislature:

We, your Committee on Penitentiaries, pursuant to a resolution heretofore adopted by you, beg leave to report:

That on March 12, 13 and 14 we made a tour of inspection of the Prison System, and all of its institutions, and found the following conditions, and make the following report:

We visited all the farm units of the system and found the lands in excellent condition and in a high state of cultivation, all of them being ready for planting and growing purposes at this time. We also note that there is an enormous amount of garden truck, such as onions, cabbages, carrots, beets, peas, beans, cauliflower,

and many other kinds of vegetables being raised thereon, and being utilized by the system in effecting a large reduction in the cost of maintaining and feeding the prisoners. There is an area on said farms planted this year for the first time in sugar beets, from which an enormous yield is now present, approximately 10 to 12 tons thereof per acre, and which is now being used to a good advantage as feed for the cows, hogs and chickens belonging to the system. We found that there is a large amount of truck being furnished by the farms to the "Walls" at Huntsville, at practically no cost, and that more than a carload a week could be furnished to the eleemosynary institutions at Austin at a nominal cost and transportation thereof could be effected by means of State-owned trucks with trusty inmate drivers.

We found the sanitary conditions at all the farms and camps thereon in good condition, and the health of the inmates to be excellent; a very small percentage being on the sick list; we also find that the work and labor being performed on said system is of a high order and done with a degree of cheerfulness that speaks well for the discipline and fair dealing of those in authority. Also further, that the inmates have an abundance of good, well cooked, healthful food.

We find that the increase in the pay of guards and their being placed in uniform has resulted in good men being employed by the system as such guards, a greater respect being shown for them by the prisoners, and a great saving to the State in the conservation of its resources.

We find no complaint whatever of brutality upon the part of the guards toward the prisoners.

We find that the Prison Commission is now erecting a central unit on the old Imperial Farm, consisting of a canning plant, a refrigerating plant, a packing plant and a dormitory, all the work being fireproof concrete and done by prison labor, only two persons being hired at a salary as supervisors of such work. The commission is drilling a deep well at this place with machinery now owned by the State, all labor being that of inmates.

We found the Goree Farm, where the women are confined, to be undergoing minor improvements only; and that the tailor shop has been moved from the "Walls" and the women are doing good work in a cheerful man-

ner and turning out large quantities of clothing, a sufficient amount to clothe all the inmates of the system.

The tubercular inmates at the Wynne Farm seem to be well cared for and are doing as well as can be expected. The Prison Commission has not expended the money appropriated by the last Legislature for the purpose of improving this farm, and hospital facilities for these patients are neglected. Naturally, the greatest mortality on the system is on this farm, and hospital facilities there should be improved at an early date. The management of this farm have wonderfully improved such farm with new and good roads, planting crops, shrubbery, raising a large amount of chickens, and increasing their hogs to where fresh meat is given these unfortunate persons at practically all times, and yet the herd is increasing. This farm is now equipped with sewerage and a sanitary disposition of all garbage is made at all times.

We desire to commend the work being done by the officials in organizing inmate schools and desire to point out that many prisoners have learned to read and write, while others are studying subjects of higher learning.

In the "Walls" we found that a marked improvement had been made. In fact there is a hum arising from their industries that has not been heard for many years.

The sewerage system now about completed has added greatly to the comfort and sanitation of the cell blocks, and is a source of gratification to all of us and especially to the members of the Legislature who were here at the past session.

A printing office 45x90 feet has been built and equipped with new and up-to-date machinery at a cost of less than \$12,000. The office is capable of doing a fair amount of work in a creditable manner, and also of furnishing instruction to inmates who desire to learn the printer's trade. We are impressed with the wisdom of attempting to rehabilitate the prisoner, and teach him some trade while in his enforced confinement, that will enable him to support himself in after life, at some honorable occupation.

We were also pleased with the advancement made in the shoe shop, where a good shoe is being made in large numbers at a low cost. We sug-

gest the Board of Control take all the surplus shoes of this industry for the purpose of shoeing our eleemosynary institution inmates, and allow the Prison System to teach another lucrative profession to desiring inmates.

The management is to be commended in their efforts to segregate the hardened criminals from the young and less offensive ones, and we recommend that this practice be continued in order that the young inmate will have a better chance to rehabilitate himself.

We found the spirit of all employees and prisoners to be of a very high order and an element of cooperation manifested itself throughout the whole system that leads us to believe that the present management is in close touch with the situation, and understands the prison problems in a higher degree than the average management thereof in the past. We wish to commend the administration of Honorable Lee Simmons as humane, intelligent and efficient, and to express our appreciation of the wonderful work he is accomplishing as manager of this system.

Your committee offers for your consideration the following recommendation:

1. That the Prison System headquarters remain in Huntsville, and that the various farms be retained and that the entire system be operated under the present plan. The committee in the alternative, is opposed to moving headquarters or any other unit from its present location, and recommend that the barracks on the present farms be improved from time to time as the State of Texas may have the money for this purpose.

2. That the Prison System be given an appropriation in the sum of \$20,000 for the purpose of buying a drag line machine to be used in levying and constructing drainage ditches, and for other purposes in and around the prison farms so that the Texas Prison Board can follow out the provisions of Section 8, of House bill No. 10, Chapter 61, of the Acts of the Fifth Called Session of the Forty-first Legislature.

3. That there be constructed on the Ramsey, Central and Harlem Farms barracks in lieu of those now on said farms of a fireproof type suitable for housing of the "line men" worked on said farm, and that the

sum of \$100,000 be appropriated for the purpose of constructing such units. Also that prison labor be used in building such barracks.

4. That the residence of the captain in charge of the Harington Farm be rebuilt, and that the sum of \$3000 be appropriated for such purpose.

5. That there be built from the main highway to the Ramsey, Retrieve, Clemons and Harlem Farms, a suitable all-weather surfaced road, and the sum of \$34,000, or so much as is necessary, be appropriated for such purposes.

6. That the Prison Commission hereafter only employ men to fill such vacancies as may occur in the system with the exception of the matron at the Goree Farm. Your committee believes that the inmates of the Prison System being practically all men, that a male employee can serve more efficiently and with less embarrassment than a female.

7. That the Board of Control be authorized and directed by statute to buy from the prison system all products and commodities that are used in State institutions which can efficiently and economically be manufactured by the present and improved facilities or additional industries that may be installed at the Huntsville unit, and such products and foodstuff as may be so produced by the State farms, canning plants or slaughter house.

Respectfully submitted,

Reason for Vote.

I vote "nay" on House bill No. 790 because it violates Section 57 of Article 3, of the Constitution, in that no notice of thirty days was exhibited in the Legislature; and further, it being a local bill regulating the affairs of a county in violation of Section 56, of Article 3, of the Constitution, it also violates Section 30, of Article 16, of the Constitution.

FARMER.

HOUSE BILL ON FIRST READING.

The following House bill, introduced today by Mr. Keller by unanimous consent, was laid before the House, read first time, and referred to the appropriate committee, as follows:

By Mr. Keller:

H. B. No. 993, A bill to be entitled "An Act to amend Article 529 of the Penal Code, and declaring an emergency."

Referred to the Committee on Criminal Jurisprudence.

REASON FOR VOTE.

I vote "no" on House bills Nos. 610, 311, 811, 821, 846, 851, 859, 864, 865, 866, 872, 874, 870 and Senate Bill No. 400, because no evidence of the "Notice" required by Section 57 of Article III of the Constitution, was "exhibited" in the Legislature before such bills were passed, and some of them are in violation of Section 56 of Article III of the Constitution in that they attempt to regulate the affairs of a county or city by a local law, these bills being unconstitutional, will further burden our courts and entail expense needlessly.

FARMER.

ADJOURNMENT.
